

June 28th., 1917.

Mr. Thos. N. Milton,
Richland, Florida.

Dear Sir:

Your application for pension was submitted to the Board for consideration a few days ago, and I have been directed to request that you furnish further and more definite information relative to the value of your property.

The tax book of Pasco County for the year 1916 shows that you have property in that county at the assessed valuation of \$3,930.00, and the tax books of Columbia County show, for the same year, that your property in that county is valued at \$200.00, making a total of \$4,130.00. You have no personal property assessed to you in either county, however, you claim in your application for pension that you own stock valued at \$200.00, and personal property at \$300.00. You claim in your statement of the value of your property that you own real estate in Lake City and Richland to the value of \$600.00, and as I have mentioned above, the tax books show the assessed valuation of your property to be \$4,130.00.

As you know, no property in the State is assessed at over 50% valuation, which would make the actual cash value of the property \$8,260.00, and the actual cash value of the personal property that you acknowledge in your statement \$1,000.00. You claim further in your statement to own mortgages, notes and other securities to the value of \$3,500.00.

Kindly advise the Board relative to these differences, and make oath to the actual cash value of all property owned by you, and an itemized statement thereof.

Yours very truly,

Sec'y State Pension Board.
